Pedram MohammadAliPour

Flutter Software Engineer

I'm a mobile developer with over nine years of experience building Android and Flutter apps. I started with native Android and have focused on Flutter since 2019, delivering cross-platform apps with clean architecture and solid performance. At Dotin I work on financial and ERP apps, and freelance work has sharpened how I manage time, talk with clients and ship production-ready code on my own.

Experience

-  **Dotin** · Flutter Software Engineer May 2024 – Present
- Works on the Flutter Mobile Runner, the front end of an app generation platform. Builds and maintains core features in several mobile projects, with a focus on performance, scalability and smooth UX.
-  **Negah Holding** · Flutter Team Lead Jul 2023 – May 2024
- Led the Flutter team building a digital wallet with credit-based payments, and contributed to a supply chain finance (SCF) app.
-  **City Development & Innovation** · Flutter Developer → Team Lead Apr 2022 – Jul 2023
- Led development of HamrahShahr Plus, the mobile bank for Shahr Bank, its back office and several ERP apps. Ran the Flutter team's process, code quality and app performance.
-  **Paratech Co** · Android Developer Jul 2017 – Apr 2022
- The only mobile developer, taking apps from UI design to release; moved to Flutter after two years.
